Add Transactions to Project

Done

550

You can add transactions to the project from a transaction list.

Step 1: Choose a source of transactions

All Transactions from a known CICS Region

Step 2: Choose a CICS region

COO1 at "SVL H50 MVS BOX" (Show region details)

Step 3: Add transactions to the project

Add	Transaction	Actions	Initial Pgm	Library	Member	Documentation
<<Add	ACTD		ACTDVR			
<<Add	ACT1	view source	V2ACTDB	PKGD.DMH.V6R1M2.SAMPSRC	V2ACTDB	view doc.
<<Add	CST1	view source	V2CSTDB	PKGD.DMH.V6R1M2.SAMPSRC	V2CSTDB	view doc.
<<Add	EBMR		DFHMIRS

WebSphere Development Studio for OS/390

Configuring Transaction ACT1 for Input 770 720

Program variables currently selected for input 710

Configure	Data Element	Actions	Type	Byte Length
Deselect 785	01 DFHCOMMAREA 730	view in source 760	GRP 740	16

Candidate program variables for input 780 790

1. Most likely candidate: DFHCOMMAREA 795
(You have already selected DFHCOMMAREA.)

2. Likely candidate referenced redefines of DFHCOMMAREA
(There are no top level data elements which both redefine DFHCOMMAREA and are also referenced in the initial program.)

3. Candidates referenced on level data elements

Configure	Data Element	Actions	Type	Byte Length
Select	01 HV-ACCTNO	view in source	NUMB	4
Select	01 HV-BALANCE	view in source	NUMB	5

Document Done.
